

Enabling Inclusion Through Digital Empowerment

Empowering Persons with Disabilities from Rural and Tribal Communities Through Digital Entrepreneurship, STEM Learning, Digital Innovation, and Mentorship — **Driving Inclusion, Exploration, and Transformation.**

Under Samarth SoचनाPreneur project 500+ such PwDs are empowering rural communities through digital services, literacy, and access to entitlements using digital infrastructure

Digital Academy: Empowering Women and Youth with Disabilities

Connecting more than 900 PwDs through STEM learning programs and providing hands-on makerspace to explore, experiment, and innovate by 52 STEM trainers

More than 50 Persons with Disabilities from rural and tribal communities are connected to an online mentorship program, which was later adopted by the Ministry of Tribal Affairs

50,000 PwDs Empowered:
Bridging abilities with opportunities
through training and job portals for
inclusive employment success

Through these impactful programs, Digital Empowerment Foundation has empowered thousands of PwDs, enabling them to become catalysts of change. These SoochnaPreneurs are now transforming over 1,000 villages, bridging the gap between communities and essential services, opportunities, and rightful access to resources.

Digital Empowerment Foundation aims to establish 600 PwDs to run Samarth SoochnaPreneur Centres in the next two years to empower communities and transform lives.
